Forensic Science International, 38 (1988) 297–300
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX
Volume 38 (1988)

Accident, motorcycle, fatality, AIS, licencing, 93
Acridine orange method, myocardial infarction, postmortem diagnosis, haematoxylin-eosin stain, formazan test, K/Na ratio, 21
Acute phase reactants, brain wound, cortical contusion, plasma proteins, computerized tomography, 285
AIS, motorcycle, accident, fatality, licencing, 93
Analytical toxicology, postmortem drug disposition, morphine, 259
Anaphylaxis, dextrans, drug hypersensitivity, embolism, immune complex disease, 251
Antisera-testing, Lewis, inhibition test, preferential detection, body fluid, 129

β-Blocker, plasma determinations, HPLC, ophthalmology, side-effects, 37
Body fluid, Lewis, inhibition test, preferential detection, antisera-testing, 129
Brain wound, cortical contusion, plasma proteins, acute phase reactants, computerized tomography, 285

Cannabis, drug abuse, heroin, capillary gas chromatography, thin-layer chromatography, Turkey, 75
Capillary gas chromatography, drug abuse, heroin, *cannabis*, thin-layer chromatography, Turkey, 75
Capillary gas chromatography, multidrug overdose, wide-bore capillary column, toxicology, 185
Carbon monoxide, dichloromethane, hepatotoxicity, cultured hepatocytes, GOT, m-GOT, 113
Cause and manner of death, drug addiction, fatalities, demographic data, 139
Cause of death, diabetes mellitus, fructosamine, glycated hemoglobin, 203
Complete/incomplete hanging, hanging, fracture of thyroid cartilage and hyoid bone, typical/atypical hanging, declivous lividity, suspension time, 83
Computerized tomography, brain wound, cortical contusion, plasma proteins, acute phase reactants, 285
Copper sulfate poisoning, tissue copper concentration, metallothionein, 3
Cortical contusion, brain wound, plasma proteins, acute phase reactants, computerized tomography, 285
Costal cartilage classification (patterns of), identity, sex, 193
Cultured hepatocytes, dichloromethane, carbon monoxide, hepatotoxicity, GOT, m-GOT, 113
Cyanide poisoning, toxicology, storage conditions, postmortem change, cyanide production, 173
Cyanide production, toxicology, cyanide poisoning, storage conditions, postmortem change, 173

Decipherments, handwriting, illegible writing, photocopies, writing of the blind, 161
Declivous lividity, hanging, fracture of thyroid cartilage and hyoid bone, typical/atypical hanging, complete/incomplete hanging, suspension time, 83
Demographic data, drug addiction, fatalities, cause and manner of death, 139
Dextrans, anaphylaxis, drug hypersensitivity, embolism, immune complex disease, 251
Diabetes mellitus, cause of death, fructosamine, glycated hemoglobin, 203
Dichloromethane, carbon monoxide, hepatotoxicity, cultured hepatocytes, GOT, m-GOT, 113
Drug abuse, heroin, *cannabis*, capillary gas chromatography, thin-layer chromatography, Turkey, 75

Drug addiction, fatalities, demographic data, cause and manner of death, 139
Drug hypersensitivity, anaphylaxis, dextrans, embolism, immune complex disease, 251

Electrocution, rigor mortis, experimentation, time of death, 27
Embolism, anaphylaxis, dextrans, drug hypersensitivity, immune complex disease, 251
β-Endorphin, medulla, pituitary, spinal fluid, sudden infant death syndrome, 67
Erythrocyte potassium concentration, postmortem interval, erythrocyte water content, 101
Erythrocyte water content, postmortem interval, erythrocyte potassium concentration, 101
Experimentation, rigor mortis, electrocution, time of death, 27

Fatalities, drug addiction, demographic data, cause and manner of death, 139
Fatality, motorcycle, accident, AIS, licencing, 93
Forensic pathology, mass murder, 53
Formalin-fixed tissue, toxicology, paraquat, 243
Formazan test, myocardial infarction, postmortem diagnosis, haematoxylin-eosin stain, acridine orange method, K/Na ratio, 21
Fracture of thyroid cartilage and hyoid bone, hanging, typical/atypical hanging, complete/incomplete hanging, declivous lividity, suspension time, 83
Fructosamine, diabetes mellitus, cause of death, glycated hemoglobin, 203
FT-IR microscopy, microspectrophotometry, paint, vehicles, household, thin sections, 43

Gas chromatography, toxicology, prothiophos, organophosphorus insecticide, gas chromatography-mass spectrometry, 13
Gas chromatography-mass spectrometry, toxicology, prothiophos, organophosphorus insecticide, gas chromatography, 13
Glycated hemoglobin, diabetes mellitus, cause of death, fructosamine, 203
GOT, dichloromethane, carbon monoxide, hepatotoxicity, cultured hepatocytes, m-GOT, 113

Haematoxylin-eosin stain, myocardial infarction, postmortem diagnosis, acridine orange method, formazan test, K/Na ratio, 21
Handwriting, illegible writing, decipherments, photocopies, writing of the blind, 161
Hanging, fracture of thyroid cartilage and hyoid bone, typical/atypical hanging, complete/incomplete hanging, declivous lividity, suspension time, 83
Hepatotoxicity, dichloromethane, carbon monoxide, cultured hepatocytes, GOT, m-GOT, 113
Heroin, drug abuse, *cannabis*, capillary gas chromatography, thin-layer chromatography, Turkey, 75
High performance liquid chromatography, oxazepam, solid phase extraction, 237
Household, microspectrophotometry, FT-IR microscopy, paint, vehicles, thin sections, 43
HPLC, β-blocker, plasma determinations, ophthalmology, side-effects, 37

Identity, sex, costal cartilage classification (patterns of), 193
Illegible writing, handwriting, decipherments, photocopies, writing of the blind, 161
Immune complex disease, anaphylaxis, dextrans, drug hypersensitivity, embolism, 251
Inhibition test, Lewis, preferential detection, antisera-testing, body fluid, 129

K/Na ratio, myocardial infarction, postmortem diagnosis, haematoxylin-eosin stain, acridine orange method, formazan test, 21

Lewis, inhibition test, preferential detection, antisera-testing, body fluid, 129
Licencing, motorcycle, accident, fatality, AIS, 93

m-GOT, dichloromethane, carbon monoxide, hepatotoxicity, cultured hepatocytes, GOT, 113
Mass murder, forensic pathology, 53
Mechanisms, vertebro-basilar arterial walls, stress, traumatic subarachnoid haemmorhage, 275
Medulla, β-endorphin, pituitary, spinal fluid, sudden infant death syndrome, 67

Metallothionein, copper sulfate poisoning, tissue copper concentration, 3
Microspectrophotometry, FT-IR microscopy, paint, vehicles, household, thin sections, 43
Morphine, postmortem drug disposition, analytical toxicology, 259
Motorcycle, accident, fatality, AIS, licencing, 93
Multidrug overdose, wide-bore capillary column, toxicology, capillary gas chromatography, 185
Myocardial infarction, postmortem diagnosis, haematoxylin-eosin stain, acridine orange method, formazan test, K/Na ratio, 21

Ophthalmology, β-blocker, plasma determinations, HPLC, side-effects, 37
Organophosphorus insecticide, toxicology, prothiophos, gas chromatography, gas chromatography-mass spectrometry, 13
Oxazepam, solid phase extraction, high performance liquid chromatography, 237

Paint, microspectrophotometry, FT-IR microscopy, vehicles, household, thin sections, 43
Paraquat, toxicology, formalin-fixed tissue, 243
Photocopies, handwriting, illegible writing, decipherments, writing of the blind, 161
Pituitary, β-endorphin, medulla, spinal fluid, sudden infant death syndrome, 67
Plasma determinations, β-blocker, HPLC, ophthalmology, side-effects, 37
Plasma proteins, brain wound, cortical contusion, acute phase reactants, computerized tomography, 285
Postmortem change, toxicology, cyanide poisoning, storage conditions, cyanide production, 173
Postmortem diagnosis, myocardial infarction, haematoxylin-eosin stain, acridine orange method, formazan test, K/Na ratio, 21
Postmortem drug disposition, analytical toxicology, morphine, 259
Postmortem interval, erythrocyte water content, erythrocyte potassium concentration, 101
Preferential detection, body fluid, 129
—, Lewis, inhibition test, antisera-testing, body fluid, 129
Prothiophos, toxicology, organophosphorus insecticide, gas chromatography, gas chromatography-mass spectrometry, 13

Rectal cooling, time of death nomograms, 209
Rigor mortis, experimentation, electrocution, time of death, 27

Sex, identity, costal cartilage classification (patterns of), 193
Side-effects, β-blocker, plasma determinations, HPLC, ophthalmology, 37
Solid phase extraction, oxazepam, high performance liquid chromatography, 237
Spinal fluid, β-endorphin, medulla, pituitary, sudden infant death syndrome, 67
Storage conditions, toxicology, cyanide poisoning, postmortem change, cyanide production, 173
Stress, vertebro-basilar arterial walls, traumatic subarachnoid haemmorhage, mechanisms, 275
Sudden infant death syndrome, β-endorphin, medulla, pituitary, spinal fluid, 67
Suspension time, hanging, fracture of thyroid cartilage and hyoid bone, typical/atypical hanging, complete/incomplete hanging, declivous lividity, 83

Thin-layer chromatography, drug abuse, heroin, *cannabis*, capillary gas chromatography, Turkey, 75
Thin sections, microspectrophotometry, FT-IR microscopy, paint, vehicles, household, 43
Time of death, rigor mortis, experimentation, electrocution, 27
Time of death nomograms, rectal cooling, 209
Tissue copper concentration, copper sulfate poisoning, metallothionein, 3
Toxicology, cyanide poisoning, storage conditions, postmortem change, cyanide production, 173
—, multidrug overdose, wide-bore capillary column, capillary gas chromatography, 185
—, paraquat, formalin-fixed tissue, 243
—, prothiophos, organophosphorus insecticide, gas chromatography, gas chromatography-mass spectrometry, 13
Traumatic subarachnoid haemmorhage, vertebro-basilar arterial walls, stress, mechanisms, 275
Turkey, drug abuse, heroin, *cannabis*, capillary gas chromatography, thin-layer chromatography, 75
Typical/atypical hanging, hanging, fracture of thyroid cartilage and hyoid bone, complete/incomplete hanging, declivous lividity, suspension time, 83

Vehicles, microspectrophotometry, FT-IR microscopy, paint, household, thin sections, 43

Vertebro-basilar arterial walls, stress, traumatic subarachnoid haemmorhage, mechanisms, 275

Wide-bore capillary column, multidrug overdose, toxicology, capillary gas chromatography, 185

Writing of the blind, handwriting, illegible writing, decipherments, photocopies, 161
